# Zeno Inu

## Welcome to Zeno Inu.

Zeno, also known as Grand Zeno (全王 Zen'ō, lit. "King of All"), is the Omni-King and the supreme ruler of all the Multiverse and its most powerful being.

As the Omni-King of the multiverse, he controls it all.

# Motivation

## For the people, by the people

Zeno Inu brings utility and community together in order to rule the coinverse.

Zeno Inu started with a clear goal in mind. To achieve omnipotence within the Anime/Meme token space. Zeno Inu started towards the end of October 2021. Early investors and crypto aficionados recognized the immense potential in Zeno Inu. The rest is history.

The founders were well traversed in the crypto space. With a clear lack of a symbol within the space - the goal was clear.. To create the best token there can be by utilizing utility and community to the maximum. Together we shall ascend towards never seen before heights.

# Utilities

## Do not underestimate Zeno

\$ZENO will have its use as more than just a coin. We plan to expand heavily into the Metaverse.

The \$ZENO coin will be the entry and currency used in our upcoming game.

In the near future we will release:

- Sneak peak of DAPP
- Smart Contract audit
- Stay tuned
- Stay tuned

# Tokenomics

## Zeno always has a purpose

To ensure continued growth, we need to allocate funds for development, marketing and holders. For that reason tax was introduced.

Initially 30% of tokens were sent to the burn address, which also gets a piece of the tax that is distributed to holders which ensures that the supply is constantly diminishing.

Total supply: 1,000,000,000,000 ZENO

Tokens burned: ~34 %

Tokens burned per day: 1-2%

### 2% Holders

2% of all sales tax will be distributed amongst all diamond handed holders.

### 6% marketing

6% of all sales tax will be used for marketing and advertising \$ZENO across the universe.

### 2% Development

2% of all sales tax will be used for further development of the Zeno Inu brand and identity.

# Roadmap

## The road to ascension

### Phase 1

Launch ZENO on uniswap. Marketing Blitz (Tiktok, Youtube, Telegram, Twitter). Get listed on CMC + Goingecko

### Phase 2

Integrate ZENO with other partnerships. Whitepaper/ Release sneak peak of dapp. Smart contract audit

### Phase 3

Release of interactive DAPP News articles. Dextools/CMC advertising & Listing on exchanges . Bridge chains.
